

Required Swimming Pool Lifesaving Equipment

The required lifesaving equipment listed below must be readily accessible near the swimming pool deck and kept in good repair.

All Facilities:

- First aid kit - any commercially prepared 24-unit kit or a supply of band aids, bandage compresses and self adhering gauze bandages
- Pocket face mask with backflow prevention valve to assist with CPR
- Reaching pole at least 15 feet long

At Supervision Level II Swimming Pools:

- Rescue tube with an attached line *for each lifeguard* required to be on duty
- Full size commercially available spine board or a spine board six feet long and a minimum of sixteen inches wide, with hand holds and straps

At Supervision Level IV and Homeowner Association Exempt Swimming Pools

- Two U. S. Coast Guard approved ring buoys that are at least 18 inches in diameter and are fitted with a quarter inch diameter line that has a length of 1.5 times the maximum width of the pool or 50 feet whichever is less.
